Loading The Dataset:

Here the Dataset is Loaded to the content.

The screenshot displays the IBM Cognos Analytics with Watson user interface. At the top, a navigation bar includes the product name, a search bar, and user profile information. Below this, a blue banner indicates a maintenance status and shows the active project: 'Analyzing salesmonthly.csv'. A progress bar is visible, along with 'Cancel' and 'Details' buttons. The main content area features a welcome message, a brief guide on how to get started, and two buttons: 'Watch video' and 'Take a product tour'. To the right, there is a 3D isometric graphic of data cubes. Below the main content, a 'Quick launch' section provides four primary actions: 'Upload data' (with a description of upload methods), 'Prepare data' (describing data module usage), 'Exploration' (describing unbiased answer finding), and 'Present data' (describing dashboard and report creation).
